REPAIRS: We at Flodraulic will partner with our team to keep your highly technical systems continually performing at peak levels. Our team can be part of your service support network. Our goal is to help prevent or eliminate costly downtime. With more than 40 years of experience working with many manufacturers Flodraulic can be your partner to help troubleshoot your problem and if required coordinate repair or replacement of failed components.

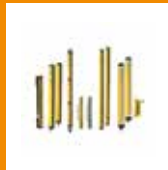

As your partner we do not charge for most evaluations. All repairs will include a 1 year warranty.

OUR CONTINUOUS GOAL IS COST REDUCTION AND PROCESS IMPROVEMENT.

CONSULTATION SERVICE: The Process

- Analyze the current manufacturing process.
- Evaluate the current filtration process/products.
- Recommend/design the optimal filtration solution.
- Create an action plan to achieve/maintain the long term filtration goal.
- Implement the defined filtration solutions.

PROGRAM GOALS

- Improve uptime on machines
- Reduce consumables
- Improve filtration quality
- Stock delivery on products

RHM FLUID POWER

a FLODRAULIC company

innovation applied™

Through partnerships with world-class manufacturers, **FLODRAULIC** brings together the technologies that provide answers to the ever-changing needs of modern industry. Let us show you how the custom integration of our full product line will provide the fluid power solutions needed to be competitive in today's changing marketplace.

SOME OF OUR PARTNER SUPPLIERS INCLUDE:

ABB / Baldor Motors
Accumulators, Inc
Adaptall
Aggressive Hydraulics
Air Sentry
